Education

Master of Applied Computer Science (graduated), *St. Francis Xavier University* 📄 2020 – 2022
Antigonish, Canada

Bachelor of Computer Engineering (graduated), *University of Mumbai* 2016 – 2020
Mumbai, India

Skills

Technology

Python, PyTorch, Tensorflow, ReactJS, NodeJS, ExpressJS, HTML5, CSS3, PostgreSQL, MySQL, MongoDB, Hadoop, Flask, Keras, Pandas, Scikit-learn, Linux, MacOS, Windows.

Tools

VS Code, GitHub, Power BI, AWS (EC2 and S3), MS Office, JetBrains (PyCharm, WebStorm), Slack, Discord, Anaconda, Jupyter.

Professional Experience

Research Assistant, *St. Francis Xavier University* 📄 09/2021 – 04/2022
Antigonish, Canada

- Worked on developing a GAN as a research project to gain deeper insights into applications of Generalized Adversarial Networks in the field of Medical Science.
- Developed a GAN that could produce augmented videos of Human Action Recognition using PyTorch and PyTorch Lightning on the HMDB51 dataset.
- Using a pretrained video classifier available in PyTorchVideo, tested whether the augmented videos help in improving the performance of the classifier.

Internship Trainee, *EduVance* 06/2018 – 07/2018
Mumbai, India

- Worked on Python basics, File I/O and Exception Handling, Lambda and map functions along with List comprehension and hands-on learning in Jupyter Notebooks.
- Also worked on traditional Machine Learning algorithms like Decision Trees, Linear Regression, Multivariate and Polynomial Regression, Stochastic Gradient Descent, and Perceptron.

Projects

Portfolio Website 📄 10/2022 – 11/2022

- Developed portfolio website using React, HTML, and CSS.
- Used react-scroll for single page navigation.
- Used CSS modules for styling the entire website.

Diabetic Retinopathy Identification 📄 03/2019 – 05/2020

- Worked with TensorFlow Keras to fine tune a pre-trained VGG16 model with custom classes.
- Created a client interface using Flask, HTML, CSS.
- Deployed the project using an AWS EC2 instance.
